In addition to dollar and percentage copays, insured persons are responsible for deductibles, as described below. BlueCard Benefits

Explanation of Covered Expense

Plan payments are based on covered expense, which is the lesser of the charges billed by the provider or the following: PPO Providers—PPO negotiated rates. Insured persons are not responsible for the difference between the provider's usual charges & the negotiated amount.

Non-PPO Providers & Other Health Care Providers (*includes those not represented in the PPO provider network*)—The customary & reasonable charge for professional services or the reasonable charge for institutional services.

When using Non-PPO and Other Health Care Providers, insured persons are responsible for any difference between the covered expense & actual charges, as well as any deductible & percentage copay.

Calendar year deductible for all providers	\$250/insured person maximum of three separate deductibles/family
--	---

Deductible for non-PPO hospital	\$500/admission (<i>waived for emergency admission</i>)

In addition to the benefits described above, coverage may include additional benefits, depending upon the insured person's home state. The benefits provided in this summary are subject to federal and California laws. There are some states that require more generous benefits be provided to their residents, even if the master policy was not issued in their state. If the insured person's state has such requirements, we will adjust the benefits to meet the requirements. This Summary of Benefits is a brief review of benefits. Once enrolled, insured persons will receive a Certificate of Insurance, which explains the exclusions and limitations, as well as the full range of covered services of the plan, in detail.
